

1 Week Sea Kayaking on Gozo with 5 Day Expedition Around the Maltese Archipelago

The Maltese Archipelago is often referred to as the islands of sunshine and history, and lies virtually in the centre of the Mediterranean.

Gozo, the island of the mythical nymph Calypso, is a 30 minute ferry ride away from mainland Malta, and a haven of tranquility due to its slower pace of life.

Rugged sea cliffs, tabletop hills and steep valleys with terraced fields stepping up the slopes characterize Gozo and its unique landscape. The beaches and the entire coastline have been left largely untamed and retain a picturesque natural look.

The blue coastal waters are clean and safe for water sports with sea temperatures averaging around 24 °C in the summer and a minimum of 15 °C in the winter.

Typical Mediterranean weather makes Gozo the perfect destination all year round.

The Maltese islands are also rich in culture and environmental heritage and are truly a paradise to linger and unwind.
